Join an inspiring workshop where participants create memoirs, personalized transformational maps, and performances by reimagining freedom as a foundation. Together, we will explore its profound connections to ecology, hope, and identity, revitalizing our relationships with nature and the environment. Through Ethnodrama, participants will delve into the concept of the flâneur and the culture of the café, drawing inspiration from the city's rich

history, art, and dramatic expression. A half-day trip to Monet Gardens in Giverny will provide deeper connections with nature. These explorations will unlock new dimensions of self-reflection and creativity, re-energizing both personal and professional lives.
